Keathley Landscaping Expands Certified Yard Drainage Solutions Across North Texas Communities

September 09, 2026

GARLAND, TX - September 09, 2026 -
Keathley Landscaping, a certified drainage contractor serving homeowners throughout North Texas, has expanded its yard drainage services to address the growing number of properties affected by water damage and flooding. The company, led by NDS Certified Drainage Contractor Logan Keathley, now provides custom drainage assessments and installation across a broad service area that includes Lucas, Parker, Richardson, and surrounding communities.

Improper drainage remains a persistent concern for area homeowners, particularly during heavy rains and seasonal storms. Water that pools around foundations or fails to drain properly can lead to costly structural damage, much of which is not covered under standard homeowners insurance policies. Keathley Landscaping addresses these issues through a range of engineered solutions, including French drains, yard grading, and large custom-designed buried drainage pipes.

As part of its expanded offering, the company begins each project with a detailed yard assessment before

developing a custom drainage plan tailored to the specific slope, soil, and water flow of the property. This approach allows the team to resolve even complex flooding conditions that have proven difficult to correct through conventional methods. The company reports that drainage lucas projects have become an increasing part of its workload as homeowners in that area seek durable answers to recurring water problems.

"Every property presents a different challenge, and there is always a solution once the underlying problem is properly identified," said Logan Keathley, owner and NDS Certified Drainage Contractor at Keathley Landscaping. "The goal is to give homeowners a lasting fix rather than a temporary patch, and to do it in a way that remains practical and reasonable for the household budget."

Keathley Landscaping continues to serve residents in nearby areas as well. The company provides parker drainage solutions designed for both established neighborhoods and newer developments, where changing landscapes and grading often alter how water moves across a property. As a drainage company richardson homeowners have turned to for complex projects, Keathley Landscaping applies the same assessment-based method regardless of the size or difficulty of the issue.

"Drainage work is not simply about moving water from one place to another," Keathley said. "It requires understanding how the entire yard behaves during a storm, and then designing a system that protects the home over the long term. That is the standard applied on every project."

Beyond drainage, Keathley Landscaping offers a full range of outdoor services, including sod installation, landscape lighting, stonework and retaining walls, flowerbeds and hardscapes, landscape design and installation, fence repair and installation, patio covers, outdoor kitchens, firepits, and tree trimming and removal. The combination of drainage expertise and broader landscaping capability allows the company to restore both the function and appearance of affected properties.

Keathley Landscaping is a full-service landscaping and drainage contractor based in Texas and operating since 2002. The company holds NDS Certified Drainage Contractor credentials and serves Dallas, Garland, Wylie, Plano, Lucas, Parker, Richardson, and surrounding communities. Its work focuses on delivering reliable, custom-designed outdoor and drainage solutions for residential properties across the region.
